Abitibi Power & Paper Co., Ltd.—To Purchase Its Preferred Stock-

D. W. Ambridge, President, on Nov. 10 announced that the directors have authorized the management to purchase in the market for retirement preferred shares of the company. This is to occur as and when favorable opportunities arise and to the extent that the cash position of the company from time to time justifies.—V. 170, p. 1077.

Aerovox Corp.—Acquisition—Sales Higher—Earnings for 1949 Estimated-

W. Myron Owen, President, on Nov. 15 announced that this corporation, with plants in New Bedford, Mass., and at Hamilton, Ontario, one of the largest manufacturers of capacitors, has purchased for cash the entire outstanding stock of the Electrical Reactance Co., with plants at Franklinville, N. Y.; Jessup, Penn., and Myrtle Beach. S. C. The latter firm will be operated as a wholly-owned subsidiary under the continuing management of Charles E. Krampf as President, who will become a director of Aerovox Corp. "Electrical Reactance is the largest manufacturers in the world of ceramic capacitors. Its acquisition places Aerovox in the unique position of being the only producer of a complete line of fixed capacitators," said Mr. Owen. While the sale of Electrical Reactance have been confined to the radio and television fields, Aerovox derives about half its business from the autemobile, electrical appliance and fluorescent lighting industries.

In the nine months ended Sept. 30, 1949, Aerovox alone had sales

In the nine months ended Sept. 30, 1949, Aerovox alone had sales of \$5,500,000 compared with \$4,800,000 in the same period last year. "October sales were the largest in the company's history and November will exceed October," said Mr. Owen. The growth of the business of the Electrical Reactance is comparable, the announcement said.

For the current fiscal year, which will end Dec. 31, 1949, Mr. Owen estimates earnings of Aerovox alone at \$475,000, or approximately \$1.50 per share of the 312,700 shares outstanding. Mr. Kampf estimates the earnings of Electrical Reactance for the same period at \$225,000, or about 70 cents per share of Aerovox Corporation common stock.

Aetna Life Insurance Co., Hartford, Conn. — Plans 331/3 % Stock Dividend-

The directors on Nov. 11 recommended an increase in the capital stock from \$15.000,000 to \$20,000,000 by the declaration of a stock dividend of one new share for each three shares held. The additional shares will be paid for by transfer of \$5,000,000 from accumulated surplus of the stock department to the capital account. It is planned to issue the 500,000 additional shares to stockholders of record Feb. 21, 1950. The par value of the shares will remain unchanged at \$10.000. 1950. The par value of the shares will remain unchanged at \$10.

The recommendation will be submitted to stockholders at the annual meeting on Feb. 14.

A company statement said:

"Should this recommendation be approved by the stockholders, it is the intention of the directers to inaugurate regular dividends on the increased capital at the same rate as at present, namely, 50 cents a share payable quarterly, provided continuing favorable earning; justify such declarations, and that the new stock share in dividends payable April 1, 1950, and thereafter."—V. 169, p. 597.

Albert Frank-Guenther Law, Inc.—New Director— Richard A. Cullinan, a Vice-President, has been elected a director.— V. 170, p. 1797.

pared with \$31,000,000 in the third quarter last year.

At Sept. 30 unfilled orders were \$13,400,000, compared with \$15,604,000 at beginning of the quarter. Operations for the quarter were
at the approximate rate of 65% of 40-hour capacity. New orders
received in the three months' period would have sustained operations
at approximately 57% of 40-hour capacity. If there should be an
early settlement of the coal and steel strikes and the expected general
improvement in business activity occurs, operations through the balance
of the year may be at a somewhat higher rate.

On Aug. 18 repayment was made of the \$2,000,000 balance due on
bank loans. This payment liquidated all outstanding loans which at
the beginning of the year were \$7,000,000.

### American & Foreign Power Co., Inc. - New Brazilian Plant Inaugurated-

The Americana hydro-electric power plant was inaugurated on Nov. 19. It will help serve a 40,000-square mile, empire-like region, the electrical market potentialities of which are described as greater than those of any other comparable area.

The territory into which it is pumping 20,000 kilowatts of additional electricity, to relieve an acute power shortage for some 243 cities and communities, is the heart of Sao Paulo, the most highly industrialized State in Brazil. Into this State is contentrated the greatest outlay of foreign capital, chiefly from North America, for industry as well as agriculture.

This new \$6,500,000 plant is a part of the corporation's \$125,500,000 public utility network in Brazil. It was linked Nov. 19 to the company's 16 other generating plants in Sao Paulo—and to the most extensive inter-connected hydro-electric system in South America, including 1,400 miles of transimission lines. It comprises materials and equipment provided by 125 North American manufacturers.

The new plant is situated 60 miles northwest of the City of Sao Paulo, the "Chicago of Brazil."

Elmer F. Johnson, head of American & Poreign Power's 19 public service subsidiaries in Brazil, pointed out that in the last two years, alone, his company has inaugurated in the Paulista area two modern hydro-electric plants with a total output of 50,000 kilowatts, at a cost of \$13,000,000: that the number of customers has grown from 80,000 in 1930 to 170,000, an increase of 112%: that the area's 17 plants, with units totaling 100,000 kilowatts, today are generating power at an annual rate of 450 million kilowatt hours, compared with 145 million kwh in 1930, or a 210% expansion.

"And we're still not up to the demand, which continues to upset all logical calculations," he asserted. "Brazil is no exception to the world-wide, unprecedented demand for electrical living that has followed the war, but here the electrical shortage is infinitely more acute, because no other area is developing so rapidly and so extensively as Sao Paulo."

Mr. Johnson said his company is so impressed with the Brazilian

Mr. Johnson said his company is so impressed with the Brazilian outlook that it has outlined to the Government a ten-year, \$63,000,000 power program to serve the Sao Paulo development. He said the plans, contingent principally upon arranging financing, include the construction of his company's greatest hydro-electric installation in Brazil, a plant on the Rio Grande in northern Sao Paulo with an initial

this site, known as Maribondo, would bring its total capacity to 160,000 kilowatts.

The corporation began operations in Brazil in 1927. Its 19 subsidiaries serve 334 communities in ten states, including the capitals of nine. The subsidiaries range from Natal in the north to Pelotas in the south, a sweep of 2,200 miles. Fifteen of them operate light and power service. The others include telephone, street car, bus launch, elevator, water and manufactured gas.

Mr. Johnson pointed out that Americana is but one of four major construction projects his company has completed this year, at a total cost of \$22,600,000, increasing Brazil's electrical supply by 48,060 kilowatts. Among them is the 18,000-kw Areal hydro installation, in the State of Rio de Janeiro. It will serve principally the great industrial area of Niterol, capital of the State across the bay from the City of Rio, and Petropoils, summer capital of Brazil. Areal, Americana and the 30,000-kw Avanhandava Plant, in western Sao Paulo, the third unit of which was added last May, are the most modern hydro installations in South America. This year's projects will boost American & Foreign Power's capacity in Brazil to 256,000 kilowatts, compared with 161,000 in 1944, or an expansion of 60% since the war. Plans beyond 1949, depending on financing, would boost it another 118,000 kilowatts.—V. 170, p. 1797.

### American Gas & Electric Co.-To Advance Not Exceeding \$15,000,000 to Appalachian Electric-

The SEC Nov. 14 announced the issuance of an order authorizing company to make cash advances from time to time to its subsidiary. Appalachian Electric Power Co. in amounts not exceeding \$15,000,000 in the aggregate.

The initial advances will be used by Appalachian to pay off bank loans aggregating \$8,600,000, and the additional advances will be used for construction purposes and will obviate the need for further bank loans under an \$18,000,000 line of credit previously established by Appalachian. The advances are to be without interest. It is anticipated that the open account advances will be discharged by the investment by American Gas in additional common stock of Appalachian, which will be accomplished as soon as the necessary steps can be taken to authorized the issuance of such additional common stock.—V. 170, p. 1797.

MERICO has contracted to acquire all the physical assets of G. C. Whalen and Co., Inc., and all the business of the latter company relating to the insurance of private-type aircraft. G. C. Whalen, who owns 86% of the capital stock of the Whalen Company, has been engaged in the fire and casualty insurance business for about 20 years. In June, 1946, he started an insurance brokerage business in the District of Columbia specializing in the insurance of private-type aircraft and their owners and pilots. In July, 1947, he incorporated the Whalen Company under the laws of the District of Columbia to continue this business. All risks acquired were insured by a large foreign insurer.—V. 170, p. 1694.

### SEC Approves Offering—

SEC Approves Offering—

The company has received SEC authorization to issue and sell to its stockholders 276,805 shares of additional common stock (no par).

The stock is to be offered for subscription by stockholders of record on or about Nov. 23, 1949, at a price to be determined by the company, and at the rate of one additional share for each 10 shares held. Stockholders will also have a conditional privilege to subscribe for shares not purchased by other stockholders.

Any shares not thus sold by American Natural will be sold at competitive bidding. The successful bidder will acquire the stock at the subscription price to stockholders and will bid on the amount of compensation for their underwriting services.

Net proceeds of the stock sale will be used for general corporate purposes, including the purchase of an additional 142,857 shares of the common stock of Michigan Consolidated Gas Co. (Detroit) at its \$14 par, and 250,000 shares of the common stock of Milwaukee (Wis.) Gas Light Co. at its \$12 par. The subsidiaries will use the proceeds of their stock sales for capital expenditures.—V. 170, p. 1909.

### American Overseas Airlines, Inc.—Increases Service-

Daily flights across the Atlantic in luxurious 60-passenger Stratocruisers began Nov. 15, this corporation announced, marking an increase from four flights a week with the 340-mile-an-hour double-deck

On the same day, AOA retired from transatlantic service the last of its DC-4s, the first land-planes to cross the ocean on regular schedules, AOA, the first company to place DC-4s into commercial Atlantic service in 1945, becomes the first U. S. carrier to retire the fleet of these transatlantic pioneer four-engine transports.

The Stratocruisers and Constellations have gradually replaced earlier

DC-4 equipment since AOA imagurated Stratocruiser service Aug. 17.
Compared with the DC-4s its replaces, the Stratocruiser is a sky giant. The smaller plane seats 37, the Stratocruiser 60 plus a luxurious lower deck cocktail lounge accommodating 14. The bigger plane has a 100 mile-an-hour erige in speed and accommodations for spacious berths at an additional charge of only \$25.

The corporation now has seven Stratocruisers in operation and is retaining two DC-4s for service between Frankfurt and Berlin.—V. 170, n 1389.

### American Power & Light Co.-Plan Approved-

Federal Judge Edward Conger signed an order Nov. 14 approvin the reorganization plan of the company, a holding company in the Electric Bond & Share System.

The SEC previously had approved the plan, which provides for distribution of most of American's assets to its stockholders. Under the plan, holders of preferred shares will receive 82% of the

assets to be distributed, and common stockholders will receive 13%.

### Weekly Input Increased 2.23%—

SOTE: On account of the fluctuations in the rates of exchange, remittance for foreign subscriptions and advertisements must be made in New York funds.

For the week ended Nov. 10, 1949, the System inputs of subsidiaries of this company amounted to 233,884,000 kwh., an increase of 5,104,000 kwh., or 2.23%, over the corresponding week of last year.—V. 170, p. 1909.

Commenting on results for the nine months of 1949 and the outlook for early next year. Theodore E. Mueller, President, said that the volume of residential building contracts awarded has been "at a very high relative level since June." This factor combined with low inventories on the part of customers has resulted in substantially full operation of the company's plants and in "a volume of business in the company's major products which is limited only by American-Standard's ability to produce and ship," he stated.

# The Capital Flotations in the United States During the Month of October And for the Ten Months of the Calendar Year 1949

Corporate emissions for October showed an increase of \$366,699,564 over the month of September, the totals being \$531,717,403 and \$165,017,839 respectively, and compares with \$647,242,184 for the corresponding month of 1948. The substantial increase for the month is due to a large extent to the heavy placement of private issues, the total for the month in this phase of financing accounting for \$298,562,500 or over 56% of the month's total.

The exceptionally heavy financing for the oil industry for October was another factor in the increase noted for the month. Emissions in this category alone aggregated \$215,595,000. Except for \$595,000 in stocks, the balance was represented by private placements.

Stock offerings for the month were also relatively active, especially in the public utility field, the emissions of utility stocks for October totaling \$98,076,763, contrasted with \$41,100,000 in September.

As stated above corporate financing for October was \$531,717,403. Of this total \$440,911,959, or 82.9% was for new capital purposes and \$90,805,444, or 17.1% for refunding. Thus the course of financing followed the same pattern for the 39th consecutive month, showing new money greater than refunding operations with the exception of May, 1947.

The principal issues for the month were: 498,081 common shares of American Gas & Electric Co. for a total of \$22,289,125; 856,695 common shares of West Penn Electric Co. aggregating \$20,244,144; 250,000 shares 4.08% cumulative preferred stock (par \$100) of Public Service Electric & Gas Co.; \$18,000,000 Gas Service Co. 278% first mortgage bonds, due 1969; \$40,000,000 Indianapolis Power & Light Co. first mortgage bonds, 278% series, due 1979; \$15,000,000 Duquesne Light Co. first mortgage 258% bonds, due 1979; \$40,000,000 Union Oil Co. of Calif. 234% promissory notes, due 1974; \$25,000,000 Richfield Oil Corp. 25-year 2.85% sinking fund debentures,

due 1974 and \$35,000,000 Mid-Valley Pipe Line Co.  $3\frac{5}{8}$ % sinking fund bonds, due 1967.

Privately placed issues for October accounted for \$298,562,500 or 56.1% of the month's financing. Comparison with preceding months follows:

|           | No. of Issues | Total Amount  | % of Tota |
|-----------|---------------|---------------|-----------|
| October   | 24            | \$298,562,500 | 56.1      |

### Treasury Financing in October

Secretary of the Treasury Snyder on Sept. 29 announced that \$6,246,740,000 subscriptions were received and allotted to the offering of 11/8% Treasury Certificates of Indebtedness of Series H-1950, on an exchange basis, par for par. to holders of Treasury Certificates of Indebtedness of Series G-1949, called for redemption on Oct. 1, 1949, in the amount of \$6,535,161,000. The balance was redeemed in cash.

The Secretary of the Treasury announced on Aug. 12 that the bonds of three outstanding issues which may be redeemed at the option of the United States on Dec. 15, 1949, are called for redemption on that date. These issues are the 2% Treasury Bonds of 1949-51, dated July 15, 1942, due Dec. 15, 1951; 3½% Treasury Bonds of 1949-52, dated Dec. 15, 1951; 3½% Treasury Bonds of 1949-53, dated Dec. 15, 1952; and 2½% Treasury Bonds of 1949-53, dated Dec. 15, 1936, due Dec. 15, 1953. There are now outstanding \$2,097.615,100 of the 2% bonds, \$491.375,100 of the 3½% bonds, and \$1,786,—110.450 of the 2½% bonds.

Secretary Snyder said on Aug. 22 that a Treasury note would be offered in connection with the refunding of the Treasury bonds called for redemption on Dec. 15, 1949.

The Treasury Department in October, outside of the above, confined its operations to the usual weekly sale of Treasury Bills, Savings Bonds, Tax Anticipation Notes and Depositary Bonds.

Coupon and registered bonds interchangeable.

PURPOSE—The net proceeds will be used in part for the construction, completion, extension and/or improvement of its facilities and/or service, and in part to reimburse its treasury for expenditures heretofore made for said purposes, and in part to liquidate any short-term bank loans. Such net proceeds used to reimburse the treasury of the company will be available for application to other purposes mentioned above and may be in part applied to liquidation of short-term bank loans of the company's subsidiary. San Joaquin Associated Telephone Co., in the event that the assets of said subsidiary are acquired and its liabilities are assumed. Such loans of the subsidiary aggregate \$655,000.

CAPITAL IMPROVEMENTS—Gross property additions and better-

capital improvements of consolidated that the major additions of the year ended Dec. 31, 1948 (including the properties of Consolidated Telephone Co. acquired on April 1, 1948, and for the seven months ended July 31, 1949, amounted to \$18,514,079 and \$11,561,003, respectively. Company estimates that gross property additiona and betterments for the last five months of 1949 and for the year ended Dec. 31, 1950, will amount to \$8,313,014 and \$24,011,500, respectively. It is estimated that the major additions for the 17 month; commencing Aug. 1, 1949, will be approximately \$2,009,437 for buildings, \$8,452,138 for central office equipment, \$8,823,376 for station equipment and \$11,357,298 for outside plant. The foregoing Habras do not include the value of the properties of Oxnard Home Telephone Co. and Santa Paula Home Telephone Co. at the date of acquisition on Oct. 1, 1949, but do include estimated gross additions to said properties subsequent to such acquisition.

Additions and betterments made during the first seven months of

Additions to said properties subsequent to such acquisition.

Additions and betterments made during the first seven months of 1949 were financed with funds obtained principally (1) from the sale in November, 1943, of \$5,000,000 series E bonds (part of the proceeds of which i sue was used prior to 1949), (2) from the sale of 100,000 additional shares of the company's cumulative preferred stock (\$20 par) 5% 1947 series (sold during the period April to July, 1949), (3) from the sale in April, 1943, of 100,000 shares of the company's common stock to it; parent, General Telephone Corp., (4) from short-term bank loans, and (5) from internal sources, the principal item of which was the provision made for depreciation.

Since the company is engaged in the largest construction program in its history, it is expected that additional capital funds will be required. The company's present plans for such future financing as may be required in order to carry out this program are not yet definite. It is expected, however, that the company will use for this program (a) treasury junds on hand, (b) funds from internal sources, the principal items of which are the provisions made for depreciation and amortization (estimated to be \$5,100,000 and \$94,000, respectively, during the 17 months' period ending Dec. 31, 1950) and (c) funds from short-term bank loans and/or from the sale of additional securities when and as required. securities when and as required.

Operations at the plant, which manufactures seamless, carbon, alloy and stainless, and welded stainless tubing, resumed immediately.

The company's plant at Alliance (Ohio), manufacturing welded carbon steel tubing, was not affected by the strike, operations being maintained without interruption.—V. 170, p. 1290.

### Baltimore & Ohio RR.—Proposed Acquisition, Etc.-At the annual meeting to be held on Nov. 21, the stock be asked to approve:

(1) Purchase by the B. & O. of one-half of the capital stock of the Lakefront Dock & Railroad Terminal Co.; assumption of liability as guarantor, with the New York Central RR. Co., of an issue not exceeding \$12,000,000 of first mortgage bonds of the Lakefront company;

(2) Assumption by the B. & O. of liability as guarantor, with the Philadelphia, Baltimore & Washington RR. Co. (under lease to the Pennsylvania RR. Co.), of an issue of \$1,600,000 of first mortgage 2½% bonds, series B, of the Washington Terminal Co.;

(3) Assumption by the B. & O. of liability as guarantor, with the Pennsylvania RR. Co. of an issue of \$2,000,000 of first mortgage 4½% bonds, series A, of the Akron Union Passenger Depot Co.

The Lakefront Dock & Railroad Terminal Co. facilities at Toledo were built jointly by the B. & O. and the New York Central RR. to handle coal and iron ore, and were completed in March, 1949. The Washington Terminal Co. bond issue is for the purpose of financing additions and improvements to the terminal property. The Akron Union Passenger Depot Co, bonds were issued to finance construction of new passenger terminal facilities at Akron.

Lawrence C. Marshall, President, Bank of the Manhattan Co., New ork, N. Y., has been nominated for the office of director.—V. 170,

Barnsdall Oil Co.-Institutional Loan-The company has taken down the second and final instalment of its \$40,000,000 loan from seven institutional investors. The company already had taken an instalment for \$20,000,000.

The borrowing, arranged last summer, was designed to provide company with funds for oil and gas exploration and development. Prudential Life Insurance Co. is participating in the loan to the extent of \$25,000,000 (hearing 3\% due 1962), and the remaining \$15,000,000 is from a group of six banks. The participating banks are First National Bank of New York, Chase National Bank, Manufacturers Trust Co., First National Bank of Chicago, First National Bank & Trust Co. of Tulsa and National Bank of Tulsa.

### Proposal to Merge Ogden Corp. Abandoned-

The proposed merger of Barnsdall Oil Co. and Ogden Corp. has been abandoned, it was announced Nov. 17 by the chief executive officers of the two companies and Floyd D. Odlum, President of Atlas Corp. They issued the following statement: "Barnsdall Oil Co. and Ogden Corp. agreed that it would be inexpedient to consummate the merger

between them which had been proposed in general terms last Septem-On Sept. 2 the companies announced they had "agreed in principle" on a merger, but stated that this merger would be effected only if, among other considerations, the Bureau of Internal Revenue ruled it

The statement issued Nov. 17 said the officials "believe it doubtful The statement issued Nov. 17 said the officials "believe it doubtful that certain of the problems dealing with accounting and taxes can be worked out in a manner considered by said managements without the risk of a non-tax free reorganization." This, it added, "might result in income taxes to the stockholders."

The abandoned merger proposal involved an exchange of the stock of the two companies and possible conversion of the stock of the merged company into a preferred issue of the proposed new firm, which would have been called Barnsdall Oil Co.—V. 170, p. 978.

James DeCamp Wise, President, stated that the extremely low profit margin in the third quarter is the result of the continued high cost of carpet wools and the 5% reduction in carpet prices for the quarter. He said that the price of carpet wools from the sterling areas and Argentina has continued high and that the recent devaluation of currencies has given no relief.—V. 170, p. 590.

Black Hills Power & Light Co. - Stock Offered-The company is issuing to the holders of its common stock warrants to subscribe at \$15 per share for 33,730 shares of additional common stock (par \$1) at the rate of onefifth of one share for each share held of record Nov. 15 1949. The warrants expire Nov. 29, 1949. The issue will be underwritten by an investment banking group headed by Dillon, Read & Co. Inc.

The subscription terms also provide that in each case where a fractional-share warrant would be called for, there will be issued a conditional warrant for one full share. The warrants, other than the conditional, give holders the additional right to subscribe at the same price for such number of additional shares as they may elect, subject to allotment. PURPOSE—Company proposes to use the proceeds of the present financing for the construction of additions to its properties and for the payment of bank loans incurred for that purpose.

Construction expenditures are presently estimated at approximately \$2,200,000 for the period from Sept. 1, 1949 to Oct. 31, 1950. Company contemplates that additional funds, in excess of the proceeds of the present financing and of funds on hand, on deposit with the mortgage present mancing and of lunds on hand, on deposit with the mortgage trustee and to become available from operations, will be required for such construction expenditures. It is presently planned that such additional funds, estimated at approximately \$900,000, will be raised by the issuance of additional securities (which may or may not include additional common stock) and by temporary bank loans. Company anticipates, however, that it will be able to defer the sale of additional common stock to the latter half of 1950.

### Capital Airlines. Inc. - Seek Debenture Exchange-Plans Removal of Restrictions to Finance and Modernize

This company (formerly Pennsylvania-Central Airlines Corp.) announced plans Oct. 31 to recapitalize its present funded debt in a step to obtain money for new planes.

The plan, calling for exchange of the present 3½% debentures for a like amount of new 4% debentures, requires approval of holders of two-thirds of the \$7,385,000 of debentures outstanding. The deadline for acceptance is Nov. 30.

Only those debenture holders who consent to the modification will be affered the right to exchange.

Under the terms of the old indenture relating to the 15-year 3½% convertible income debentures, the creation of funded debt of the

corporation other than the 3½% debentures, is presently prohibited. The old indenture also presently prohibits the pledging of any property of the corporation to secure indebtedness of the corporation.

As a result of these restrictive provisions, the corporation has been unable to engage in lien or long-term financing for the purpose of acquiring the modern, faster and more economical aircraft needed to maintain its competitive position in the industry. The corporation has arranged to obtain the use of three Lockheed Constellation four-engined aircraft under a lease containing an option to purchase, for a limited time, and has arranged to purchase from Douglas Aircraft Co., Inc., three Super DC-3 two-engined aircraft. The Super DC-3 aircraft are not new in the usual sense, but are standard DC-3 aircraft substantially modified by conversion process. The corporation's present equipment program contemplates acquiring ownership of the three Constellations or other comparable four-engined aircraft and, contingent upon satisfactory experience with the three Super DC-3s to be acquired in 1950, the conversion of 17 of its presently owned DC-3 aircraft to Super DC-3s during the years 1951 and 1952. The cost of the first three Douglas Super DC-3s will approximate \$1,011,000, including related spare equipment and parts. The cost of the three Censtellation aircraft, in the event the corporation exercises the option to purchase, will be \$684,000 each less a credit for rentals paid to the date of exercising the purchase option at the rate of \$17,500 per aircraft per month. Assuming that the corporation does not exercise its purchase option until Dec. 31, 1951 (18 months from July, 1950), the corporation will have to pay, at that time, \$369,000 per airplane or \$1,107,000 for the three aircraft. The corporation's lease with Lockheed Aircraft Corp. aiso provides for the leasing of certain of the major spare part items including engines and propellers a value of approximately \$225,000. It is likewise estimated that the corporat

If the corporation should decide to purchase other comparable four-engine aircraft rather than exercise its option to purchase the three Lockheed Constellation aircraft above referred to, it is probable that the cost of such aircraft would exceed the cost of exercising such option. Since such decision need not be made until July, 1951, and since the type of such other four-engine aircraft has not been determined the amount of such excess cost is not presently determined by

mined, the amount of such excess cost is not presently determinable.

The corporation expects to be able to pay for the three Super DC-3s to be purchased in 1950 and to meet its obligations under the lease above referred to without additional financing. The equipment program for years subsequent to 1950 may or may not require financing. The form and amounts of such financing, if any, is not presently determinable and will be determined in the light of existing circum-

stances when the need arises.

In order to be assured of the ability to accomplish this program, the corporation is submitting to holders of the 3½% debentures a debt and to secure the same by liens on its property. Accordingly, the corporation is submitting to holders of the 3½% debentures a proposal for modification of the old indenture so as to eliminate such restrictive provisions. To this end holders of 3½% debentures are proposal for modification of the old indenture so as to eliminate such restrictive provisions. To this end holders of 3½% debentures are requested to forward to the corporation, care of Bankers Trust Co., agent; New York, the form of consent which they will receive in such time as to be received by Bankers Trust Co. no later than the close of business on Nov. 30, 1949. The modification will be made effective by execution of a supplemental indenture at such time as consents of the holders of 66%% of then outstanding 3½% debentures have been received by the trustee. Prior to such time, but not thereafter, any consent may be revoked. Holders of the 3½% debentures who do not consent to such modification will nevertheless be bound by the terms thereof, if consents with respect to 66%% of outstanding 3½% debentures are obtained. debentures are obtained.

### EXCHANGE OFFER

As an inducement to holders of 3½% debentures to consent to such modification, the corporation is offering to holders of 3½% debentures who so consent the right to exchange each \$1,000 principal amount 3½% debenture for \$1,000 aggregate principal amount of new debentures consisting of a \$500 4% debentures, series A, and a \$500 4% convertible income debenture, series B. Holders of 3½% debentures desiring to accept the corporation's exchange offer should forward such letter of acceptance to reach Bankers Trust Co., agent, no later than the close of business on Nov. 30, 1949, when the exchange offer will expire. No 4% debentures will be issued in exchange for any 3½% debenture unless there is received prior to the close of business on Nov. 30, 1949, the consent of the holder of such 3½% debenture to the proposed modification. Holders of 3½% debentures may consent to such modification, however, without accepting the exchange offer. Since the 4% debentures cannot be issued prior to the effectiveness of the proposed modifications of the old indenture this offer of exchange is necessarily conditioned upon the effectiveness of such exchange is necessarily conditioned upon the effectiveness of such modifications.

The corporation has employed Georgeson & Co. to selicit consents to the above modifications of the old indenture and exchanges of the 3½% debentures for the 4% debentures. Georgeson & Co. has informed the corporation that approximately 35 of its employees will be used in connection with such solicitation, and it is expected that compensation in an amount not exceeding \$6,000 will be paid to Georgeson & Co. for its services in this connection.

Lehman Brothers and White, Weld & Co., investment bankers, were retained by the corporation to assist and advise the company in the development of the recapitalization plan and will receive a fee in the amount of \$50,000 upon consummation of the recapitalization plan.

These firms were not employed to solicit consents and exchanges.

There are no underwriters with respect to the securities offered unless Georgeson & Co. may be deemed to be an underwriter (as such term is defined in the Securities Act of 1933).

NOTES—During the three months ended Sept. 30, 1949, the net asset value of the preferred stock rose from \$96.78 per share on the 13,498 shares outstanding in June, to \$103.33 per share on 13,008 shares outstanding on Sept. 30, 1949. The number of shares outstanding was reduced through the purchase fund operation on Aug. 8, when 490 shares were purchased and retired at a cost to the corporation of \$22,471, or approximately \$45.86 per share.

The common stock increased in net asset value during the quarter from \$3.16 per share to \$3.47 per share, despite the fact that during this period dividends totaling 25 cents per share were paid to common

stockholders.

The common dividend of 15 cents per share paid Aug. 19, 1949, represented a final distribution on account of net income for the year ended Dec. 31, 1948, which had previously not been distributed because of restrictions imposed by provisions of the preferred stock of the corporation. The common dividend of 10 cents per share paid Sept. 15, 1949, represented a distribution on account of net income for the six months ended June 30, 1949.—V. 170, p. 881.

### Chicago Corp.—Expansion—

The corporation announced on Nov. 14 the purchase of the refining and pipeline facilities of Atlas Oil & Refining Corp., Shreveport, La., in behalf of a group of companies engaged in the business of producing gasoline from natural gas. The price was not disclosed.

The Chicago Corp. and the participating companies will hold varying numbers of shares of stock in the new venture, but no one unit will hold a majority, a spokesman for the corporation said. The number of participating companies was not announced, but is expected to include four or five operators.

The acquired property, formerly owned by a major oil company, is expected to be taken over Jan. 1. The facilities will be operated by the combined group under a new name yet to be selected. Operating efficials also are to be chosen. One of these is expected to be Vernon B. Chance, President of Atlas.

Transfer agents: St. Louis Union Trust Co. and J. P. Morgan & Co. Incorporated (New York). Registrars: Pirst National Bank in St. Louis, Irving Trust Co. (New York).

Stock is convertible at any time up to and including the third full business day prior to redemption, into common stock of the company (with provisions against dilution) at the conversion price of \$33½ per share; redeemable as a whole or in part at any time at \$104.50 per share plus dividends, on or before Dec. 31, 1950, and lower prices thereafter. There is no sinking fund.

COMPANY—Company was incorporated in Delaware Nov. 19, 1945, as Clinton Industries, Inc., as successor to a business commenced in 1906. Name changed Nov. 14, 1949, to present title.

The company believes it is now the country's third largest manufacturer of corn products and the second largest distributor of frozen foods of which frozen orange juice concentrate represents a substantial part. The manufacture and sale of citrus products and frozen foods are continuing to expand rapidly and are becoming increasingly important. A subsidiary manufactures chip board container partitions. The principal plants are at Clinton, Ia.; Dunedin and Auburndale, Pla.; and Milwaukee, Wis.

Citrus products and frozen foods operations are now conducted by Juice Industries, Inc., and Snow Crop Marketers, Inc. It is con-templated that these wholly owned subsidiaries will be merged into

Clinton in the near future.

PURPOSE—In January, 1949, Juice Industries, Inc., with its plant at Dunedin, Fla., was acquired. This is one of the largest and most modern citrus plants in the State of Florida, with floor space of 377,500 square feet and productive capacity for the manufacture of frozen and unfrozen fruit juice concentrates. The outstanding stock and cértain indebtedness of Juice were acquired for 54,702 shares of stock of Clinton (market value \$29\frac{1}{4}\) per share or a total of \$1.600.034\) plus \$571,000. \$1,600,034) plus \$571,000.

In September, 1949, certain assets of the Wm. P. McDonald Corp. mdale, Fla., were acquired for 100,000 shares of stock (market

value \$30½ per share or a total of \$3,050,000) and approximately \$355,000 in cash after adjustment for hurricane damage in August, 1949. Plant buildings acquired are on approximately 25 acres, with floor space of about 167,000 square feet and have adequate rail connections. Facilities include modern machinery for processing and packing citrus fruits, with a fresh fruit house, a sectionizing plant, a single strength juice plant and a frozen orange juice concentrate plant. In addition, approximately 2,700 acres of orange and grape-fruit groves were acquired with a growing crop of more than 717,000 fruit groves were acquired with a growing crop of more than 717,000 poxes of maturing fruit.

These acquisitions greatly increased the productive capacity and sales potential and it is now estimated that sales of citrus products and frozen foods for 1949 will be approximately four times 1948 sales. and frozen foods for 1949 will be approximately four times 1948 sales. In order to retire certain obligations of Juice existing prior to its acquisition, reduce bank loans and amounts payable incurred in recent months and to finance larger inventories and receivables resulting from the substantially increased volume of citrus products and frozen foods business now handled and anticipated in the near future, additional capital is required. Equitable Life Assurance Society of the United States has agreed to purchase an additional \$2,500,000 of honds. of bonds.

The net proceeds from the sale of the convertible preferred stock and bonds will amount to approximately \$7,387,500. It is contemplated that part of these proceeds will be used for paying the following obligations of Snow Crop and Juice and the balance added to the working capital of the company:

| Reduction  | of   | bank  | loar  | 15_ |         |         | \$2,000,000 |

The proceeds of the above bank loans and other notes were used to finance in part the operations during the current year of Snow Crop and Juice. Such loans were obtained from J. P. Morgan & Co. Incorporated, New York, N. Y., \$600,000; Seattle First National Bank, Seattle, Wash., \$300,000; Harris Trust & Savings Bank, Chicago, Ill., \$200,000; Corn Exchange National Bank & Trust Co., Philadelphia, Pa., \$400,000; and RFC with First National Bank of Tampa, Tampa, Fla., and First National Bank, St. Petersburg, Fla., \$500,000. Netwithstanding the repayment of the above loans, other loans may be obtained in the future as circumstances require.

### Two New Vice-Presidents Elected-

Richard M. Moss, Chairman of the board, on Nov. 15 announced the election of J. I. Moone and B. C. Skinner as Vice-Presidents. Mr. Moone continues as President of the Snow Crop Marketers Division of Clinton, and Mr. Skinner becomes President of the Juice Industries Division and the McDonald Division.—V. 170, p. 1800.

### Clinton Industries, Inc.—Votes Change in Name—

The stockholders on Nov. 14 voted to change the name of this company to Clinton Foods, Inc., as more appropriate in view of the steady broadening of Clinton interests in the consumer foods field.

They also approved a proposal designating the outstanding shares from capital to common stock and authorized the creation of 200,000 shares of preferred stock, \$100 par value, issuable in series.

### Consolidated Edison Co. of New York, Inc .- Output-

The company on Nov. 16 announced that local distribution of electricity for the week ended Nov. 13, 1949, amounted to 212,700,0 compared with 209,600,000 kwh. for the corresponding week of last year, an increase of 1.5%.

Local distribution of gas in the same week amounted to 1,102,800,-000 cubic feet, compared with 1,110,700,000 cubic feet in the same week of the preceding year, a decrease of 0.7%.—V. 170, p. 1912.

### Consolidated Gas Electric Light & Power Co. of Balt. Commission Approves Private Financing—The Maryland P. S. Commission stated Nov. 15 that it would authorize company to issue \$76,660,000 of new refunding bonds, upon approval of certain mortgage amendments by the company's stockholders on Nov. 17, 1949.

Of the new bonds, \$20,000,000 of Series V bearing a 234% interest rate and maturing in 35 years, are being sold to Bankers Trust Co., as trustee under various pension trusts, General Electric Pension Trust, the New York State Bankers Retirement System and The Penn

Trust, the New York State Bankers Retirement system and The Fell Mutual Life Insurance Co.

The proceeds of this issue will be used primarily to redeem the company's \$19,259,000 of outstanding Series P and S 3% bonds. The remaining \$56,660,000 of new bonds, bearing an interest rate of 2%%, are to be offered in exchange for the company's \$12,000,000 outstanding Series Q 234% and \$44,660,000 Series R 234% first refundance bonds.

ing mortgage bonds.

The sale and exchange offer are related steps in a plan to put into effect two amendments of the company's mortgage, one removing the present limitation of \$100,000,000 on first refunding mortgage bonds outstanding at any one time, the other eliminating the present requirement that such bonds shall mature not later than 1999. All of the \$76,660,000 of new bonds are to be issued under the mortgage as

bids on the \$20,000,000 of Series V bonds which are being sold to institutional investors. The company however presented testimony to show that its interests would be best served by adhering to the previourly developed integrated plan for refunding all of its outstanding first refunding mortgage bonds and this testimony was not disputed. As now contemplated, the exchange offer to the Series Q and R bondhoders will be made on Nov. 18, 1949, after the company's registration statement on file with the SEC has become effective, and will expire on Dec. 19, 1949.

The First Boston Corp. and Harriman Ripley & Co., Inc., have been engaged by the company to solicit exchanges and to act as exchange managers in forming a group of securities dealers to solicit exchanges.

NOTE—Net earnings before income taxes for the 1949 period were 166,000, compared with \$683,000 for the 1948 period and \$975,000 \$466,000, compared for the 1947 period.

Chester F. Hockley, Board Chairman and President, in commenting on the results for the 1949 period stated that the decreased sales volume and smaller earnings, as compared with last year, related principally to reduced domestic sales of mixed fertilizer in the early months of the fiscal year and a shrinkage in export sales of superphosphate. The reduction in export sales is attributable to the dollar shortage in several countries which last year were purchasing superphosphate in the United States at this season. However, reduced earnings for the first quarter were anticipated in the corporation's planning for the current fiscal year.—V. 169, p. 2749.

Fidelity & Deposit Co. of Maryland-25-Cent Div.-

The directors on Nov. 9 declared a special "equalizing" dividend of 25 cents per share on the outstanding capital stock, payable Dec. 20, 1949 to holders of record Nov. 30, 1949.

In recommending to the stockholders last November that its stock be split two-for-one and a 25% stock dividend declared, the directors proposed to put the new stock on a regular quarterly dividend basis of 65 cents per share, or \$2.60 per share annually, should earnings funtify

The action by the board on Nov. 9 has the effect of bringing the current year's dividend payments on the 300,000 shares of new \$10 par stock now outstanding up to the proposed total of \$2.60. This sequivalent to a total ennual dividend payment of \$6.50 per share on the 120,000 shares of old \$20 par stock formerly outstanding. The old stock last year paid total dividends of \$6 a share.—V. 170, p. 303.

### Ford Motor Co., Detroit-To Build New Plant-The company has confirmed reports it is negotiating to purchase 55 acres of land in Cincinnati, Ohio, to build an automatic trans-

ission plant.

D. S. Harder, Vice-President in charge of manufacturing, said plans call for construction of call for construction of a one-story manufacturing plant of approximately 400,000 square feet of floor space.—V. 170, p. 1913.

Fort Wayne Corrugated Paper Co.—75¢ Div.—
On Nov. 15, the directors declared a year-end dividend of 75 cents per share on the common stock, payable Dec. 15 to holders of record Nov. 30, 1949. Payments of 25 cents each were made on March 15, June 15 and Sept. 15. this year.

The current dividend makes a total of \$1.50 per common share for the year 1949, against \$2 paid in 1948.

H. M. Treen, President, stated that the total annual dividend declaration this year would approximate 85% of the company's 1949 anticipated earnings. This. Mr. Treen stated, was a departure from policy established by the board in several previous years when the major portion of annual earnings was retained in surplus for the purpose of expanding and rehabilitating plants and production facilities, which project is now largely completed. During these years, approximately \$4,000,000 were spent entirely from earnings in the preservation and protection of stockholders' equities, which otherwise would have disintegrated, or at best become wholly inadequate to main the company's position as a quality producer in a highly competitive industry, the announcement said.

As a result of this policy, the company's producing facilities are fully rehabilitated and equipped with the most modern equipment, Mr. Treen stated, and it was a great source of satisfaction to the Fort Wayne mansement to know that its plants were in position to meet every competitive challenge of quality and cost.—V. 170, p. 1697.

### Garrett Freightlines, Inc.—Stock Dividend—Rights—

Garrett Freightlines, Inc.—Stock Dividend—Rights—
The ICC on Nov. 7 authorized the company to issue not exceeding 74,170 shares of common stock (par \$10), 64,170 shares to be distributed pro rata to the holders of outstanding common stock as a stock dividend, and 10,000 shares to be sold at \$20 a share cash, to provide additional working capital.

The report of the Commission states in part:

The reclassification of the common stock was the first step in a program to reduce the book value thereof to an amount which the applicant anticipates will make the stock readily saleable. It had the effect of reducing the book value of each share as of Aug. 21, 1949, from \$1,953.40 to \$195.34. In furtherance of that plan the applicant's board of directors has declared a dividend in the sum of \$90 a share on each of the 7,130 shares of common stock now outstanding, to be paid in shares of the \$10 par value common stock, within 30 days after this Commission has authorized the issue of 64.170 shares of the stock for that purpose. Concurrently with the issue of the 64,170 additional shares an amount equal to \$10 a share, or \$641,700, will be transferred from earned-surplus account to capital-stock account.

In justification for the proposed stock dividend the applicant represents, that its operations have been financed principally through income; that since its incorporation in 1919 only \$47,450 of new capital has been invested in the corporation; the last actual cash investment in its common stock was in 1943 when 43 shares of the common stock (par \$100) were issued and sold on the basis of \$750 a share. Due to its high book value prospective investors, generally employees of the applicant, have not been able to purchase the common stock except on the basis of split shares, which the applicant does not desire to issue, and stockholders who desire to dispose of their stock interests have been unable to do so. The only dividend that the applicant has declared and paid on its common stock since the year 1945 is a dividend of \$5

The applicant also requests authority to issue 10,000 shares of the new common stock to be sold on the basis of \$20 a share cash to provide additional working capital. It represents that the scheduled monthly payments on the conditional-sales contracts under which a large part of its equipment is being purchased constitute a pledge of its operating income for several years in the future. It has been unable to maintain the amount of working capital which it is obligated to do by its commitment with the bank which finances the greater part of its equipment purchases, and occasionally the applicant has a paper bank overdraft sometimes in excess of \$100,000. For a period of 60 days after the authorization of this Commission has been obtained, the owners of the outstanding common stock will have the privilege of subscribing to these additional shares. At the expiration of that period the shares of stock remaining unsold will be offered for sale, for a period of 60 days, to full-time employees of the applicant. The shares of stock remaining unsold at the expiration of the second 60-day period will be offered for sale to the public generally. In the opinion of the applicant, the book value of its common stock, which will approximate \$19.53 a share after the distribution of the proposed stock dividend, and its current earnings, justify the premium at which it intends to sell these 10,000 additional shares. The applicant also requests authority to issue 10,000 shares of the justify the p tional shares.

### General Aniline & Film Corp.—Reduces Prices—

Substantial price reductions on cameras and camera outfits are announced by the corporation's Ansco division at Binghamton, N. Y., manufacturers of photographic materials.

Aimed at increasing the volume of photographic business during the coming holiday season, the new prices are lower than ever before for Ansco's postwar camera models, and include reductions of more than 40% on Ansco's most expensive camera, the Ansco Automatic Reflex.—V. 170, p. 304.

C. and New York City aggregated \$83,514,110, a gain of 1.6% over the comparable period of 1948 when the dollar sales amounted to \$82,194,194.—V. 170, p. 884.

### (C. J.) Hendry Co .- Defers Preferred Dividend --

The directors on Nov. 10 decided to take no action with respect to declaration of the dividend payable Dec. 15, 1949 on the 5½% cumulative preferred stock. Regular quarterly distributions of 34% cents per share have been made on this issue up to and including Sept. 15, 1949.

As pointed out in the company's 1948 annual report, its sales were depressed by the labor strife on the Pacific Coast. During the year 1949, this situation has been aggravated by a 176-day waterfront strike in the Hawaiian Islands, and a 109-day warehouse strike in San Francisco. As a result of these conditions and other factors, the directors considered it unwise to declare the dividend at this time.—V. 164, pp. 1085 and 1329

Hydraulic Press Mfg. Co.—Delivers Press—
Molded Products Corp., of Chicago, Iil., less than five months after it introduced the world's largest hydraulic press, on Nov. 11 announced the acquisition of a second press which not only exerts a 1,000-ton greater force than its giant companion, but its time cycle is cut in half enabling it to doube the production of its predecessor; both presses, working together, are capable of producing four completed TV cabinets every 10 minutes, a rate here-olore thought inconceivable. The press, but t by the Hydraulic Press Manufacturing Co., follows closely standard compression molding procedure.—V. 170, p. 6.

### Idaho Power Co.—Trustee Appointed—

The Bankers Trust Co., New York, N. Y., has been appointed trustee, paying agent and registrar for \$12,000,000 first mortgage bonds, 234% series, due Nov. 1, 1979.-V. 170, p. 1914.

### Imperial Oil Ltd.—Sale of Interests—

The corporation on Nov. 16 announced that it has sold its interest in Foothills Oil & Gas, Ltd., and Lowery Petroleums, Ltd., to Federated Petroleums, Ltd. Both subsidiaries operate in the Turner Valley field of Canada. The market value of the shares purchased by Federated was reported to be around \$4,000,000.—V. 169, p. 1008.

however, were less than in the same period of last year due primarily to a termination of the conversion arrangement; which had been carried on in a substantial volume during past months."

The report reminded stockholiers that "steel mil production ceased at 12:01 a.m on Oct. 1, 1949, due to a strike called by the United Steelworkers of America-CIO to enforce their demands for a uniform industry-wide, non-contributory pens on and insurance program." The report pointed out, too, that "the United Mine Workers Union also struck the coal industry about two weeks earlier to enforce their demands for further payments to the Miner's Wekare Fund and to secure other undisclosed concessions."—V. 170, p. 1598.

### International Business Machines Corp.—New Census Machine Developed-

The Electronic Statistical Machine, developed by this corporation

for use in compiling the 1950 Census, has been formally presented to Philip M. Hauser, Acting Director of the Burcau of the Census, it was aunounced on Nov. 4. It was revealed that the new machine

combines in one operation the simultaneous functions of classifying, counting, accumulating, and editing. The machine then prints the statistical data resulting from groupings of information and automatically balances the totals to insure their accuracy.

Prior to the development of the Electronic Statistical Machine, these functions required one or more operations with a number of machines.

machines

machines.

According to the announcement the Electronic Statistical Machine has speed as well as versatility. It has a capacity for counting up to 10,000 units in each 60 different classifications while simultaneously sorting the cards into predetermined groups at the rate of 450 cards a minute. Totals for major classifications can be broken down simultaneously into smaller classifications. For example, the total number of farms in a state can be counted at the same time that they are broken down into as many as 60 size and ownership ranges.

Classifying, counting, and tabulating the results will be completed by the Spring of 1952.—V. 170, p. 1700.

### 65-Cent Dividend Declared-

On Nov. 14, the directors declared a cash dividend of 65 cents per share on the common stock, payable Jan. 1, 1950 to holders of record Dec. 2, 1949. Action on a dividend on this issue in January had been deferred at the October meeting because of the steel and coal strikes. This is at the same rate as previously paid.

On July 1, last, a 5% stock distribution was also made on the common stock.—V. 170, p. 787.

### Kansas City Public Service Co .- Defers Preferred Div.

It was announced on Nov. 11 that the directors have taken no action on the semi-annual dividend due Jan. 1, 1950 on the 5% cumulative preferred stock, par 870. This action, Powell C. Groner, President, stated, was taken in view of uncertain financial and operating conditions of the company, with a deficit anticipated for the year. No action was taken earlier this year on the dividend due day 1. The company on Jan. 1, 1949, paid \$1 per share on account of arrearages, the same as paid a year before, Arrearages as at Jan. 1, 1950, it is understood, will amount to \$8.50 per share.— 169, p. 1115.

Kendall Co.-Increases Regular Div.-Extra Declared

The directors have declared a regular quarterly dividend of 40 cents per share and a year-end extra dividend of \$1 per share, both payable Dec. 1 to stockholders of record Nov. 21, 1949. This compares with 25 cents per share previously paid each quarter and brings the total paid or declared on the common stock for the year 1949 to \$2.15 per share. Dividends equivalent to \$2.37½ per share were received by the holders of the present outstanding shares during the year 1948.—V. 170, p. 1915.

### Kerr-McGee Oil Industries, Inc.-Foreign Operations

Kermac Contractors, Inc., a Delaware corporation wholly owned by florr-McGee, and which is expected to qualify as a western hemisphere trading corporation, bas contracted with Mexican American Endependent Co. (known as CIMA) for the drilling of two 6,500-foot oil or gas test weils along the Gult of Campeche in southern Mexica.

These will be the first wells drilled in Mexico by an American oil company since the expropriation in 1938, and will be located on leases obtained by CIMA from Petroleos Mexicanos (Pemex), the petroleum operating arm of the Mexican Government.

One of the tests will be on the Xicalango structure near Cuidad del Carmen in the state of Campeche and 75 miles from the nearest oil and gas test.

The other will be known as Tortuguero location near Coatzacoalos in the state of Tabasco.

American Independent Oil Co. has contracted with Kerr-McGee Oil Industries, Inc., of Oklahoma City (which has associated with it in the venture, and Brown Drilling Co., of Long Beach, Calif.), for the first test of its oil concession in the Kuwait-Saudi-Arabia Neutral Zone, Persian Guif.

Concession of the Kuwait-Saudi-Arabia Neutral Zone is held jointly

by American Independent and J. Paul Getty, American Independent having lease on the Sheik of Kuwait's undivided half interest in the Reutral Zone of about 2,500 square miles.—V. 170, p. 1236.

### Louisiana Power & Light Co.-Proposes to Purchase Community Public Service Co.'s Facilities in Louisiana—

The company and Community Public Service Co. have filed a joint application with the FPC in connection with the purchase by Louisiana Power, and the sale by Community Public Service, of all the latter company's electric facilities and properties in Louisiana. Louisiana Power would pay \$475,000 for the properties.

The proposed sale and acquisition, in addition to water properties located in Arcadia, La., involve electric facilities in Arcadia and the adjoining Parishes of Bienville, Claiborne and Lincoln; and electric facilities in Ringgold, La., and adjoining territory in the Parishes of Bienville and Red River.—V. 170, p. 1701.

### Louisville Gas & Electric Co.—Proposed Purchase of Transmission Facilities-

The company and Louisville Transmission Corp., both of Louisville, Ky., have filed a joint application asking the FPC to authorize the purchase and acquisition by Louisville Gas, and the sale and transfer by Louisville Transmission, of all the latter company's properties for a cash consideration equal to the original cost of the properties less

the reserve for depreciation.

The application also asks FPC to authorize Louisville Gas to acquire, and Transmission to sell, all the outstanding shares of capital stock, amounting to \$10,000 total par value, and a \$320,000 mortgage note of Louisville Transmission Corp., an Indiana corporation which is a subsidiary of Louisville Transmission, the Kentucky corporation poration.

Louisville Transmission's properties include a 66-mile transmission line extending from Transmission's substation at Louisville Gas and Electric's Paddy's Run plant, near Louisville, to a connection with the Tennessee Valley Authority in Hart County, Ky.; a 41-mile line from Transmission's Paddy's Run substation to the Kentucky-Indiana state line; a 94-mile line from Louisville's Ohio Falls substation to Transmission's Canal substation in Louisville; and Transmission's substations located at Louisville's Paddy's Run-and Canal plants.

The application says that Transmission's facilities originally were constructed as part of the war effort, and points out that a SEC order of March, 1942, authorizing Transmission to issue the securities, contained a condition which said that upon the liquidation of the indebtedness of Transmission, Louisville Gas & Electric "shall cause the dissolution of the former company and the transfer of its assets to the latter company."—V. 170, p. 1916.

### Lustron Corp.—Confirms Large Sale—

Officials of this corporation on Nov. 11 confirmed sale of 2,000 prefabricated houses to the American Community Builders, Inc., of Chicago. The details were not disclosed.

The purchase price of the 2,000 housing units is believed to be more than \$20,000,000, according to an Associated Press dispatch, but approval by the Reconstruction Finance Corporation will be sought before official closing of the deal. RFC loans totaling more than \$35,000,000 have enabled Lustron to operate.

American Community Builders is constructing a housing project in surburban area of South Chicago, Ill. (See also V. 170, p. 887).-v. 170, p. 1599.

Morningstar, Nicol, Inc., N.Y.—Appointed Sales Agents In a joint statement on Nov. 11, Joseph Morningstar, President of this corporation, and Anthony J. Gabriel, General Manager of the New England Starch Co., potato starch manufacturers, announced that the former company has been appointed sales agents for the Houlton and Mars Hill (Maine) factories. This combines the sales of the New England Starch Co. plants with the Aroostook Potato Products Co., a subsidiary of Morningstar, Nicol, Inc.

The new sales arrangement will assist potato starch users by establishing a continuous supply of high grade starch, eliminating variations in quality of output, and fluctuations in prices. The Nestaco operations will benefit from the technical knowledge of the Morning-star laboratories and technical service department.

The Morningstar sales staff, augmented by their subsidiary, Paisley Products, Inc., will provide additional sales and service throughout the country by the many Paisley sales offices located in principal cities.

### Newmont Mining Corp.—Stock Distribution, Etc.—

The directors on Nov. 15 declared a year-end dividend of 25 cents per share in cash and 1/25 of a share of Hudson Bay Mining & Smelting Co., Ltd. capital stock, both payable Dec. 15, 1949 to stockholders of record Nov. 25, 1949. No fractional shares of Hudson Bay stock will be issued; such shares will be settled in cash at prices prevailing on the record date. Cash distributions of 75 cents per share were made on March 15, June 14 and Sept. 15, last.

Total paid in 1948 also was \$2.50 per share in cash and 1/25 of a share of Hudson Bay stock.—V. 170, p. 1917.

North American Co.—Reports Increase in Net Earnings Company reports for the 12 months ended Sept. 30, 1949, corporate net income of \$12,823,549, equal to \$1.50 a common share, compared with \$11,335,303, or \$1.32 a common share, for the 12 months ended Sept. 30, 1948.

For the three months ended Sept. 30, 1949, corporate net income amounted to 34,897,403, or 57c a share, compared with \$2,569,080, or 30c a share, a year ago.

This increase in corporate net income in both 12 and three-month periods as comp red with the year previous reflects two principal factors in relation to North American's investment in Union Electric Co. of Missouri, Herbert C. Freeman, North American, President, points out in a letter to stockholders: first, the increased amount of North American's investment and the corresponding increase in facilities of Union Electric Co.; second, favorable hydro-electric conditions in the first and second quarters of 1949 together with lower fuel costs. The e are reflected in corporate income in the form of an extra dividend of \$2.0.0.000 paid by Union Electric on its common stock in September, 1849.

On a pro forma basi, including results only of North American's present sub-idiaries, North American's consolidated income for the 12 months ended Sept. 30, 14, was \$12,033,000, or \$1.40 a common share. For the previous 12 months ended Sept. 30, 1948, North American reported pro form con clidated income of \$15,878,000, or \$1.85 a common share. The decrease in the pro forma consolidated net income is due entirely to the divestments made by North American in compliance with the SEC under the Public Utility Holding Company Act principally in the form of distributions to stockholders, but to a minor extent by sales of securities owned, Mr. Freeman states.

"The volume of electric service hand'ed by our utility operating

minor extent by sales of securities owned, Mr. Freeman states.

"The volume of electric service hand'ed by our utility operating companies during the third quarter established a new record for the period," Mr. Freeman sans. "Sales of electricity by Union Electric Co. of Mi souri and it: Il inois subsidiary and by Missouri Power & Light Co. totaled 124 billion kilowatt hours, an increase of 4.3% over the third quarter of lost year. Sales of electricity to industrial customers were up 12.4% and sales to residential and rural customers showed an increase of 17.1%. During August, Union Electric established a new high for the system peak load, of 982,000 kilowatts, equal to 109% of the system's rated generating capacity of 899,000 kilowatts. The August peak wa; 50,000 kilowatts above that of a year ago and 10,000 kilowatts greater than the previous high peak reported in January, 1949." in January, 1949.

### EXPANSION PROGRAM

"Work is progressing on schedule in our operating companies' large expansion programs for maeting the rapidly growing demands for more electric service in the Missouri-Illinois-Iowa area which they serve,"

"Union Electric system's capacity to meet approaching winter peak loads has been helped by favorable autumn rains which have filled the company's hydro-electric reservoir, while the new Woodriver plant of its neighboring utility, Illinois Power Company, is relieving Union Electric of part of the load in had carried for Illinois Power.

"On Oct. 24, the St. Louis County Court authorized changes in the 20ning of a tract of land at the confluence of the Mississippi and Meramec Rivers, thereby making possible the construction of a new steam-electric generating plant at the site. Grading of the property is scheduled to start soon and actual construction will get under way in 1950. Completion of the first unit of this plant will add 110,000 kilowatts of generating capacity to the Union Electric system.

"An \$0,000-kilowatt turbine—first unit of the fourth section of Venice No. 2 plant—is scheduled for completion by Aug. 1, 1950, and

the second 80,000-kilowatt unit of this section is expected to be operating four months later. The \$7,000,000 modernization of Union Electric's Ashley steam and electric plant, begun in 1948, has been completed."

Ohio Edison Co. — Seeks SEC Authority to Acquire Ohio Public Service Co. Stock from Cities Service Co.— Would Raise \$35,000,000 Purchase Price Through Stock

Ohio Public Service Co. Stock from Cities Service Co.—Would Raise \$35,000,000 Purchase Price Through Stock Sale—Merger of Companies Proposed—

The company has asked SEC for permission to acquire from Cities Service Co. 2,000,000 shares of Ohio Public Service Co. This would be effected by arranging through underwriters the sale of sufficient common stock of Ohio to raise the \$35,000,000 necessary for such purchase. Eventually Ohio intends to ask SEC authority to merge the properties of Ohio Public Service Co. The transaction proposed in the SEC application are summarized as follows:

(1) Ohio and Cities have entered into a contract dated Nov. 10, 1949 providing for the sale by Cities of the 2,000,000 shares of the common stock of Public Service owned by Cities and for the acquisition thereof by Ohio. Both Ohio and Public Service are engaged in the production, transmission, distribution and sale of electric energy within the state of Ohio. According to the filing the territory served by each adjoins the territory of the other for a distance of more than 200 miles and there are at present three interconnections between their transmission lines. This Commission by its order dated Nov. 1, 1949 (Ho.ding Company Act Release No. 9469), granted Cities an exemption from the competitive bidding requirements of Rule U-50 with respect to the sale by Cities of its entire interest in Public Service, which holdings Cities has been cridered to dispose of pursuant to the provisions of Ecction 11 (b) (1) of the Act (Holding Company Act Release No. 5028).

(2) Ohio proposes to effect the acquisition of the said shares by aranging with a group of underwriters, through negotiations, for such underwriters to pay Cities \$35,000,000 in cash, and for Ohio to reimburse the underwriters by (a) the issuance and sale through such underwriters of up to but not more than 1.144,000 shares of Ohio to reimburse the underwriters by (a) the issuance and sale through such shares which, when sold by the underwriters in cash of the amount by which th

Ohio also proposes to acquire so many of the remaining shares

Chio and the underwriters.

(4) Ohio also proposes to acquire so many of the remaining shares of Public Service outstanding, namely 1,000,000 shares held by the public, as may be tendered by the holders of such stock during a period of not less than 30 days after the acquisition of the Public Service common stock from Cities, in exchange for shares of Ohio common stock together with such amount of cash as may be necessary to give such holders the equivalent of \$17.50 for each share of Public Service on the basis of an assigned value to the Ohio stock equal to its public offering price. Ohio proposes that it may pay a commission to dealers, at a rate per share to be filed by amendment, for shares delivered to Ohio for exchange through such dealers.

(5) Ohio has requested that this Commission issue an order on or before Nov. 18, 1949, exempting it from the competitive bidding requirements of Rule U-50 in connection with the issue and exchanges of the common stock "without in any way thereby passing on or approving such proposed issues or any proposed acquisition by the following that such exemption is warranted because of, among other things, the size of the proposed issue of Ohio common stock both in dollar amount and in relation to the quantity of such stock now outstanding, the fact that most of Ohio's outstanding stock was distributed to the public since Oct. 1, 1949, as a part of the regranization of The Commonwealth & Southern Corp., and the compelexity of the proposed transactions, including the variety of the interests involved.

(6) Ohio requests authority to borrow from a bank or banks on involved.

interests involved.

(6) Ohio requests authority to borrow from a bank or banks on its unsecured note maturing in three years from the date thereof, with interest of not more than 3% per annum, the amount of cash necessary to be delivered to underwriters or to the public holders of the common stock of Public Service as above described.

Ohio has stated that as \$600 as practicable after the completion of the proposed acquisitoin from Cities and the making of the offer above described to other holders of common stock of Public Service, Ohio proposes to initiate and use its best afforts to common stock of

Ohio proposes to initiate and use its best efforts to consummate the merger of Public Service into Ohio. Ohio further states that it will file a separate application with respect to the proposed merger.

### Paramount Pictures, Inc.—Court Grants Motion-

In the pending action in the New York Supreme Court of this corporation v. Harry Brandt et al., Judge Edgar J. Nathan of that court has granted Paramount a full examination before trial of 122 defendants, as well as a thorough discovery and inspection of all of the defendants' books, records and documents pertaining to the receipts of their theatres from the exhibition of Paramount motion pictures and their operating expenses.

Paramount's action is based upon the underreporting of box office receipts from motion pictures licensed at percentage rentals, as well as the exaggeration of operating expenses, and it seeks to recover \$573,000 of damages. The suit was brought in January, 1943, against the Brandt Circuit, consisting of Harry Brandt and all of the owners and operators, during the last six years, of 97 motion picture theatres in which Brandt had an interest or for which he booked pictures. In order to establish the true amount of the receipts and operating expenses of seek of the 97 theatres. Paramount made an application

expenses of each of the 97 theatres. Paramount made an application before Justice Nathan for an examination before trial of each of the defendants and a discovery and inspection of all relevant books, records and documents pertaining to the operation of their theatres. This motion was vigorously opposed by Mr. Brandt and his codefendants. Justice Nathan's decision rules against the defendants and grants virtually the entire relief sought by Paramount's motion. Specifically, the court grants the oral examination with respect to 15. grants virtually the entire relief sought by Paramount's motion. Specifically, the court grants the oral examination with respect to 15 of the 17 items desired by plaintiff, and permits the discovery and inspection of books and records with respect to 17 of the 20 items thereof.—V. 170, p. 1499.

### Park & Tilford, Inc .- New Development-

A new type of bung seal that eliminates the possibility of tampering with barreled whiskies in bonded warehouse has just been developed at Louisville, Ky., by Park & Tilford Distillers, Inc., a subsidiary.

The tamper-proof metal seal, which is scored at the edges, is hammered on to the regular barrel bung and cannot be removed without destroying it, according to Robert T. Handren, Vice-President in charge of production. in charge of production.

The seal, which is being manufactured for Park & Tilford by the Stoffel Seal Co., was finally adopted after subjecting it to a variety of the severest kind of tests.—V. 170, p. 497.

# THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Nov. 19, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 1.4% above those of the corresponding week last year. Our preliminary total stands at \$16,850,403,972 against \$16,614,733,766 for the same week in 1948. At this center there is a gain for the week ended Friday of 3.2%. Our comparative summary for the week follows:

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below we are able to give final and complete results of the week previous — the week ending Nov. 12. For that week there was a decrease of 17.3%, the aggregate of clearings for the whole country having amounted to \$9,989,145,890 against \$12,075,588,266 in the same week in 1948. Outside of this city there was a loss of 16.2%, the bank clearings at this center having recorded a loss of 18.6%. We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York District (including this city) the totals record a falling off of 18.9%, in the Beston Reserve District of 10.9% and in the Philadelphia Reserve District of 25.9%. In the Cleveland Reserve District the totals are smaller by 18.0%, in the Richmond Reserve District by 1.7% and in the Atlanta Reserve District of 4.8%. The Chicago Reserve District registers a loss of 22.9%, the St. Louis Reserve District of 16.4% and in the Minneapolis Reserve District of 9.9%. In the Kansas City Reserve District the decrease is 14.6%, in the Dallas Reserve District 14.2% and in the San Francisco Reserve District 17.4%.

In the following we furnish a summary by Federal Reserve Districts:

·Announcement in this issue.

Dividends are grouped in two separate tables. In the first we bring together all the dividends announced the current week. Then we follow with a second table in which we show the dividends previously announced, but which have not yet been paid. Further details and record of past dividend payments in many cases are given under the company name in our "General Corporation and Investment News Department" in the week when declared.

The Corporation Sole, as provided by such laws, consists of the person holding the office of Roman Catholic Bishop of Reno and his successors in that office. Property rights of the Bishop, as Corporation Sole, pass to his successor in office and not to his heirs at law.

at law.

The net proceeds of these notes, after payment of the cost of financing, shall be applied toward the cost of a new chancery office, a Bishop's residence, high school gymnasium, all located at Reno, and for repaying certain local bank loans and two small mortgages. From a part of the proceeds of these notes the mortgage will be paid and, thereafter, there will be no mortgage against the properties owned by the Roman Catholic Bishop of Reno.

The Diocese of Reno was erected by His Holiness, Pope Pius XI, on March 21, 1931, and includes the whole State of Nevada with a total population of 110,247, and a Catholic population of 22,810. It also includes 54 parishes, missions and chapels, 48 priests, 54 sisters, ome high school, two grade schools, two hospitals, Bishop's residence, chancery office and a day nursery.

Skiatron Corp., New York-Stock Offered-An offering of 275,000 shares of common stock (par 10¢) at \$1 a share, was made Nov. 14 by this corporation with offices located at 381 Fourth Ave., New York City.

-V. 170, p. 1808.

Presented in a distinctive brochure, the stock issue is the first offering of the new corporation, which was formed to commercialize the 58 U.S. basic patents in the fields of television, electronics and communications previously developed by Scephony Corp. of America. These exclusive patents include the Supersonic and Skiatron TV systems, as well as Two-Way Telephone-Television, Subscriber-Vision, Subtractive Color Television and others.

Announcing the issue, Arthur Levey, President, declared that the entire cash proceeds of the offering will be used for essential purposes. Offered directly to the public, no underwriting firm is being employed and no cash commissions are being paid on the sale of the stock. The company is confident that the issue will be a quick sell-out on the basis of the immensely valuable inventions in which the public will now have an opportunity to participate.

"Skiatron Corp.'s patents are of such revolutionary importance." Mr. Levey said, "that they place us at the threshold of the greatest advance ever made in TV history!"

"As an example of the diversification and great value of our patents, the company's Skiatron tube played a leading part in the airways radar

the company's Skiatron tube played a leading part in the airways radar traffic control of the recent Berlin Airlift," he revealed.

"The introduction of the company's unique Supersonic and Skiatron TV systems," he said, "holds the greatest significance to stockholders

in the entire entertainment industry. These new TV methods will definitely have a profound effect, particularly upon the motion picture industry, whose future for the next decade is certain to be deeply modified by the development of TV."

Mr. Levey pointed out that, unlike any other company in the television industry, Skiatron Corp. does not have to compete as one of many manufacturers producing TV sets using the cathode ray tube. Instead, the company is in the unique position of introducing entirely new alternate methods which eliminate the cathode ray tube in television reception, he declared. Skiatron Corporation is therefore in a most favorable position as regards immediate revenue outlook and early price appreciation of its stock.

early price appreciation of its stock.

THE "NEW LOOK" IN FINANCING—The illustrated brochure through which the offering is being made is a fresh departure in the presentation of a new issue. Appealing to the middle-income group who are not usually active in the equity market, it offers them a brief and readable description of some of the unusual inventions whose immense potentialities are now ready for exploitation by Skiatron Corp. Layouts are in two colors and visual aids are used throughout, illustrating the principal features of the devices. From its attractive cover to its last page, Skiatron Corporation's brochure has the "new look" in financing.

PURPOSE OF ISSUE—Proceeds from the sale of stock, Mr. Levey stated, would be used for the following purposes:

(1) To build and demonstrate pilot models of various inventions, beginning with the Supersonic Theater TV Projector. Supersonic TV home and intermediate-size projectors giving very large-screen pictures will also be built and demonstrated. Other inventions of which working models will be made include the Skiatron projector, Subscriber-Vision system, Subtractive Color System, Two-Way Telephone-Television, the Ultrasonic (Supersonic) Combustion Engine Carburetor and others.

(2) Funds will also be used to provide adequate plant space, technical equipment, qualified personnel and working capital to achieve the speediest realization of the company's commercial potentialities.

the speedlest realization of the company's commercial potentialities.

IMMEDIATE REVENUE OUTLOOK—Several sources of very substantial revenue will be open to the company at an early date. In the theatre field, the Supersonic Theater TV Projector will fill the urgent need of the exhibitor for a reasonably priced TV unit with which to supplement film programs and provide a stimulus for sagging box-office receipts. The only competitive TV theater systems, which utilize the cathode ray tube, are far beyond the reach of the average exhibitor and produce pictures of only doubtful quality.

Skiatron Corp. plans shortly to offer its Supersonic Theater-Vision Projectors on a rental basis to the motion picture exhibitors throughout the country. Under such an arrangement, there would be no initial cost to the theater; the exhibitor would simply allocate to the company a percentage of the gross receipts of each TV performance. Skiatron Corp. is confident of capturing a major portion of the theater TV market through contracts of this type with exhibitors.

Another immediate and increasing source of revenue is expected from manufacturing licenses and royalties from other manufacturers for the basic patents owned or controlled by the company. Already more than 30 manufacturers have made inquiries for details of licenses under Skiatron Corporation's patents.

The company also feels confident that it may expect substantial

more than 30 manufacturers have made inquiries for details of incenses under Skiatron Corporation's patents.

The company also feels confident that it may expect substantial government contracts for research, development and production once its plant facilities and technical personnel are established. Contracts in excess of \$1 million have already been offered to the owners of the patents during the postwar period, but owing to the previous patent owner's involvement in anti-trust litigation and the consequent lack of plant facilities, these contracts could not be accepted.

#### Snoose Mining Co., Hailey, Idaho-Files With SEC-

The company on Nov. 8 filed a letter of notification with the SEC for 250,000 shares (25c par) common stock, to be offered at par. Underwriter, E. W. McRoberts & Co., Twin Falls, Idaho. Proceeds will be used to develop the Snoose Mine.

Southern Colorado Power Co .- Stock Offered-The company is offering to its common stockholders of record Nov. 14 the right to subscribe for 170,336 common shares (no par) in the ratio of one new share for each three shares held at \$9 per share. Rights expire Nov. 30. The issue has been underwritten by a syndicate headed by Boettcher & Co. and Bosworth, Sullivan & Co. (Inc.).

The stockholders are also given the privilege to subscribe at the subscription price for any of such shares of common stock not subscribed for through the exercise of the subscription right.

This conditional purchase privilege may be exercised only for full shares of common stock by holders of full share subscription war-

Subscriptions are payable at the transfer offices of the company at 401 North Main Street, Pueblo, Colo., at 231 South LaSalle Street, Chicago, or at 111 Broadway, New York.

The conditional purchase privilege may be exercised only in conjunction with the exercise of the subscription right by filling in the applicable section of the subscription form which accompanies the full share subscription warrants. Partial payment must be made at that time at the rate of \$1 for each share subscribed for pursuant to the conditional purchase privilege.

PURPOSE—The proceeds will be added to the general funds of the company and \$1,000,000 of such general funds will then be used for the payment of the company's presently outstanding notes payable to banks, of which \$500,000 is due on or before Dec. 31, 1949 and the remaining \$500,000 is due at various dates from Feb. 18, 1950 to March 17, 1950. Such notes were issued on various dates from Feb. 18, 1949 to Aug. 15, 1949 to finance in part the 1947-1951 construction program.

DIVIDENDS—On June 30, 1945, the then outstanding shares of preferred stock and class A common stock were reclassified into shares of common stock. Since that date quarterly dividends of 12%c per share on the common stock were paid on Oct. 15, 1945, and quarterly at that rate thereafter during the period to and including the quarter ended Dec. 31, 1946. Quarterly dividends at the rate of 15c per share were then paid thereafter during the period to and including the quarter ended March 31, 1948. Since that date quarterly dividends at the rate of 17½ cents per share have been paid: The current quarterly dividend at that rate has been declared payable on Oct. 15, 1949.

HISTORY AND BUSINESS—Company was incorporated in Colorado Nov. 14, 1911 as Arkaneas Valley Ry. Light & Power Co. and on May 22, 1922 adopted its present corporate name.

On June 30, 1945, a recapitalization of the company was consummated under Section 11 (e) of the Public Utilit/ Holding Company Act of 1935. Among the results accomplished by such recapitalization was the reclassification of the then outstanding 42,516 shares of 7% cumulative preferred stock and 110,000 shares of class A common stock into 447,160 shares of common stock. The class B common stock was eliminated.

The company is an operating electric public utility company and is now engaged in the production, transmission, distribution and sale of electricity in the State of Colorado. Company soid all of its transportation properties in 1949 and is now engaged solely in the electric business.

The company provides electric service in Colorado through an inter-connected system in a territory of approximately 400 square miles, the greater part of which is located in the Arkansas Valley, extending approximately 70 miles east and 45 miles west of the City of Pueblo. The Cripple Creek mining district in Teller County and a part of Custer County are also served. Company furnishes electric service at retail to 19 incorporated cities and towns and approximately the same number of unincorporated communities, as well as a large number of rural and farm customers throughout the extensive rural areas in its territory. Company also furnishes electric energy at wholesale, for resale, to three Eural Electrification Administration cooperate associations and to the City of Las Animas, which has an estimated population of 3,800.

1947-1951 CONSTRUCTION PROGRAM—The 1947-1951 construction program contemplates extensive additions and improvements to system properties involving presently estimated expenditures of approximately \$8,900,000 of which approximately \$4,200,000 was expended in 1947 and 1948. It is expected that expenditures during 1949 will approximate \$2,000,000, of which amount approximately \$1,800,000 was expended during the eight months ended Aug. 31, 1949.

Funds for the 1949 expenditures were obtained in part from reserves and earnings and in part from the \$1,000,000 of bank borrowings. It is estimated that financing of approximately \$1,500,000, in addition to funds available from reserves and earnings, will be necessary subsequent to 1949 to finance the balance of the 1947-1951 construction program, but no determination has been made as to the method of such financing. of such financing.

#### State Street Investment Corp.—Rights—

The corporation intends to issue rights sometime in December, propably on a basis of one share for each 10 held, according to a letter to stockholders.

The total issue is expected to amount to about \$6,500,000, the aggregate of capital gains in the past three years. The company made capital gains distributions in 1947 and 1948 totaling \$2,500,000 and expects to pay a cap.tal gains distribution of about \$2.65 a share in December.

The rights are expected to be payable Dec. 24 to holders of record Dec. 15, and to be good until Jan. 24. It is contemplated that the issuance will enable stockholders to reinvest their capital gains of the past three years at asset value without paying a premium or sales load.—V. 170, p. 695.

#### Stone & Webster, Inc.-\$1.50 Year-End Dividend-

Texas Eastern Transmission Corp.—Seeks Permission to Build Additional Pipe Lines to Serve New England-

The corporation Nov. 14 asked the FPC for authority to construct additional pipe line facilities to serve utilities in the New Englandarea with as much as 200,000,000 cubic feet of natural gas per day

additional pipe line facilities to serve utilities in the New England area with as much as 200,000,000 cubic feet of natural gas per day by 1951.

The owner of the Big and Little Big Inch pipe line system filed its request by amendment to a previous application of March 10, 1948, in which it originally made known its desire to serve New England.

Texas Eastern proposed in the present amendment to serve the New England area by transporting up to 45 billion cubic feet per year from its compressor station near Lebanon, Ohio, as far as Concord, New Hampshire, through a new pipe line.

The new line would "loop," or parallel, with 30-inch pipe, the existing Inch Lines from Lebanon to Connellsville, Pa. From that point the existing Inch Lines would be used for the transportation of additional gas to Lambertville, N. J. An additional 49,200 compressor horsepower would be installed on the system. From Lambertville, a new 26-inch line would be built to utility systems in Greenwich, Bridgeport, Norwalk, Derby, New Haven, Hartford, Waterbury and Naugatuck, Conn.: Springfield, Holyoke, Worcester, Boston, New Bedford, Plymouth, Brockton, Lowell and Lawrence, Mass.; Providence, R. I.; Manchester, Concord and Nashua, N. H.; and possibly other, communities in the area.

"Texas Eastern is eager to serve the New England area," R. H. Hargrove, President of Texas Eastern, said. "We feel that the character of our service and our rates will be attractive to utilities and customers in the New England States." Mr. Hargrove added that further details of this project would also be announced at the hearings.

Texas Eastern's daily sales capacity will be increased from its presently authorized 740,000,000 cubic feet per day to 940,000,000 if the company's application is granted.—V. 170, p. 1704.

# Texas Engineering & Mfg. Co., Inc.—Brazilian Contract The company has been awarded a contract by the Brazilian Government to rehabilitate and overhaul six C-47 aircraft, Robert McCul-

loch, President, announced.

The new contract, which has a total value of approximately \$140,000, calls for preparation and pick-up of the aircraft at Tucson, Arizona, and their complete rehabilitation at the TEMCO plant in Dallas, Texas.

The contract with the Brazilian Government, Mr. McCulloch said, brings to nine the number of foreign countries for which TEMCO has rehabilitated military and transport type aircraft.—V. 170, p. 1640.

The company has applied to the SEC for an order exempting it from provisions of the Investment Company Act which prohibits it from serving as a depositor of or principal underwriter for Commonwealth Fund Indenture of Trust, Plans A and B, and Commonwealth Fund Indenture of Trust, Plans C and D, diversified open-end management companies of Boston.

The present prohibition grows out of an injunction order issued Sept. 9, 1949, by the U. S. District Court for the District of Massachusetts, which enjoined Trusteed Funds and various individuals from engaging in certain alleged conduct and practices in violation of certain provisions of the said Act and the Securities Act of 1933.

Trusteed Funds was the depositor of and principal underwriter for Commonwealth Fund securities. According to the present application, ho one of the natural persons named as a defendant in the Court action above referred to is now an officer, director or employee of Trusteed Funds; and that Applicant proposes to discontinue the sale of Plan D Indentures, to reduce certain fees on Plans A and B securities, to modify certain periodic reports to indenture holders, and to revise sales practices for the purpose of avoiding repetition of the conduct and practices alleged in the complaint filed by the Commission which resulted in the court injunction of Sept. 9 referred to.

With respect to the option warrants now outstanding which, according to the company's application, is view by the Commission to have an "unrealistic status," the plan would provide for the cancel'ation of outstanding option warrants "by requiring the holders thereof to exchange them for new option warrants on the basis of one new

warrant to purchase a share of United common for five old warrants each to purchase a share of United common." Each new warrant would entitle the holder to purchase, within five years, a share of the United common at \$7 per share.

Concerning the proposed sale of the South Jersey stock, United states that an effort will be made to dispose of its ho.dings as a single block to a small group of investors, in order "to avoid in United's disposition of its holdings any substantial increase in the number of stockholders of this relatively small operating company."—V. 170, p. 1920.

### United Gas Corp.—Third Quarter Earnings—

The corporation Nov. 17 announced in its third quarter report to stockholders that consolidated ret income for the nine months ended Sept. 30, 1949, amounted to \$10,649,272. This is the equivalent of \$1 per chare on the common stock as compared to \$1.41 per share for the nine months ended Sept. 30, 1948.

Consolidated net income for the quarter ended Sept. 30, 1949, amounted to \$1,748,250. This is the equivalent of 16c per share as compared with 30c per share for the same period last year.

Dividends amounting to 75c per share (at the rate of 25c per share each quarter) have been declared on the common stock during the nine months' period ended Sept. 30, 1949, and represent no change over the same period in 1948, according to N. C. McGowen, President.

Consolidated operating revenues decreased \$1,033,000 or 2% during the three quarters of 1949 as compared with the same period in 1948. Natura: gas revenues increased \$2,115,000, but crude oil operating revenues decreased \$2,271,000, gasoline revenues decreased \$683,000 and sulphur revenues decreased \$194,000.

Mr. McGowen said natural gas revenues increased despite the extremely mild weather experienced in the early part of the year, and the fact that industrial activity so far this year has been below expectation. expectation.

The decrease in crude oil revenues is due almost entirely to the curtailment of production by regulatory authorities in the state of Texas, he said. There were no such shutdown restrictions on production in 1948, but beginning in January, 1949, the number of producing days per month was gradually cut so that, in August, only 17 days' production was allowed. Producing days were increased to 18 in September, and a further increase of one day has been ordered for November, because of improvement in the market demand and reduction in crude oil stocks. tion in crude oil stocks.

Gasoline sales increased 8,219,000 gallons during the nine months' period ended Sept. 30, 1949, over the previous year, but a decrease of 1.78 cents per gallon in average price caused the decrease in revenue, it was stated.

Sulphur production increased during the period, although sales decreased which resulted in an increase in inventory.

Mr. McGowen said the increase of \$3,968,000 in operating expenses was caused mainly by an increase of \$2,760,000 in gas purchases and \$1,033,000 in pay roll. Gas purchases are up principally due to an increase in average price of gas resulting in an additional cost of \$2,151,000 and an increase in volume purchased amounting to \$609,000. The increase in pay roll is due to the fact that in 1948 there were two increases in the rate of pay—one in February and another in August, and while there have been no wage changes since that time, the year 1949 reflects fully these increases whereas the year 1948 reflects only a part of the increases.

While it has been the practice of the company to make long-term industrial contracts, he pointed cut that contracts are expiring every year and those expiring in the current year have been renewed at substantially higher rates.

The increase of \$1,020,000 in the appropriations for property retirement and depletion is mainly due to the necessity for providing for the ultimate retirement and depletion of a greater amount of property, according to the corporation's President.—V. 170, p. 1235.

U. S. Gypsum Co.—Secondary Offering—A secondary offering of 9,700 shares of common stock (par \$20) was made Nov. 15 by Merrill Lynch, Pierce, Fenner & Beane at \$1037% per share. Dealers discount \$1.30.-V. 170, p. 1920.

# United States Steel Corp.—Strike Ended—

Following completion of an agreement between this corporation and the United Steelworkers of America (CIO), which was signed by both parties in Pittsburgh, Pa., on Nov. 11, the union's strike against United States Steel came to an end at 12:01 a.m. on Nov. 12, 1949.

Benjamin F. Fairless, President, on Nov. 11 made the following statement:

This settlement follows in its most important provisions those previously concluded by the union with other major steel companies. It represents a compromise of the principal issue in dispute, namely, whether or not the employer shall pay the entire cost of insurance and pensions for employees. The new insurance and pension arrangement is subject to approval by the stockholders of United States Steel Corp. It is expected that a special meeting of stockholders will be called for that purpose. The new insurance and pension programs will continue in effect for five years, subject to the right of United States Steel to terminate the pension plan at the end of two years, if it so desires.

Under the settlement United States Steel and the employees will each

Under the settlement United States Steel and the employees will each pay one-half of the cost of a program of insurance for employees, including death, sickness, accident and hospitalization benefits, the total cost of such program to be 5 cents for each hour worked.

The settlement further provides that an employee who retires after Feb. 28, 1950, after attaining the age of 65 and having at least 25 years of continuous service, shall receive a pension computed in accordance with a formula based upon his compensation and length of service, such pension to be not less than \$100 a month, including social security benefits. Any employee who so retitres with at least 15 years, but not as much as 25 years of continuous service, shall be entitled to a pension calculated upon a proportional basis. The cost of such pensions will be borne by United States Steel. However, the pension to be paid by United States Steel shall be reduced by the amount of any pension or annuity which such retired employee is entitled to receive under the Federal Social Security Act requires equal contribut ons by employers and employees. To that extent pensions under this settlement are upon a contributory basis.

We welcome the conclusion of the strike and the resumption of steel operations which will enable us to do our part in meeting the steel needs of the nation.—V. 170, p. 1741.

Proceeds will be used to repay bank loans incurred in connection with construction already under way or completed.—V. 176, p. 1440.

#### Virginia Electric & Power Co.-Proposes to Acquire Facilities of East Coast Electric Company-

The FPC has received an application for approval of the proposed purchase and consolidation by company of the electric facilities of East Coast Electric Co., which operates electric facilities in three non-interconnected areas in the Tidewater Region of Virginia.

VEPCO proposes to issue 118,1.5 shares of common stock (par \$10) to East Coast for the properties which had a book cost of \$4,547,160 as of Sept. 20, 1949.

The joint application says that East Coast's three systems are already interconnected with VEPCO's system and that through economies of operation expected to result from the proposed consolidation of the facilities, VEPCO will reduce rates in East Coast's territory by about 10% upon the consummation of the proposed transaction.—V. 170, p. 1920. V. 170, p. 1920.

### West Penn Electric Co.—Weekly Output-

Power output of the electric properties of this company for the week ended Nov. 12, 1949 totaled 94,191,300 kwh., a decrease of 17.38% from the output of 113,866,600 kwh. for the corresponding week of 1948.—V. 170, p. 1958.

West Virginia Water Service Co.—Bonds Placed Privately—The company has sold \$1,000,000 first mortgage bonds. 31/8 % series due 1979 to the New York Life Insurance Co., it was announced Nov. 14 by Thomas J. Blair, President.

Proceeds of the sale will be used to refund \$500,000 of first mortgage 31/4% bonds due 1966 and to provide funds for construction. Shea & Co., Inc., acted as agent for the issuer.—V. 170, p. 1846.

#### Western Maryland Ry.—Exchange Plan Offered on 4% Bonds-

The details of the company's exchange offer were announced Nov. 17 in a letter from Eugene S. Williams, President, to holders of \$44,177.00% noncallable first mortgage 4% bonds, due Oct. 1, 1952. The holders are offered an equal principal amount of new general mortgage bonds bearing interest at the rate of 4½% for 3 years and at the rate of 4% thereafter to maturity in 1969.

Morgan Stanley & Co. and Alex Brown & Sons have been employed to organize and manage the solicitation of exchanges on behalf of the company. Bondholders who accept the exchange offer will receive, in addition to the higher interest rate for 3 years, an appreciably stronger mortgage lien than they now hold and the benefit of sinking funds which provide for further reduction of the company's mortgage debt and which were not provided for the 4% bonds due 1952.

The offer is contingent upon being declared operative by the boars of directors of the company on or before Jan. 17, 1950, and is subject to authorization of the creation of the rew mortgage by the stockholders of the company and to authorization by the ICC of the issuance of the new bonds. The company has called a special meeting of the stockholders on Dec. 15, 1949 to authorize the creation of the general mortgage and has applied to the ICC for the necessary authority to issue the new general mortgage bonds.

As part of the program, the company plans to provide for the 1etterment of the entire outstanding \$5,234,000 of its collateral trumbonds and the entire outstanding \$1,275,000 principal amount of Greet-brier, Cheat & Elk RR. first mortgage bonds.

brier, Cheat & Elk RR. first mortgage bonds

Upon consummation of the plan, funded debt (exclusive of equipment obligations) outstanding in the hands of the public will have been reduced to \$46,177,000, a reduction of \$7.027,000 or about 13% since Dec. 31, 1948, and a reduction of \$15,162,000 or about 25% since Dec. 31, 1940. The successful consummation of the exchange offer will materially simplify the company's debt structure and will provide it with a strong financing medium for meeting its financial requirements.

The company has the distinction of having earned its fixed charges during each of the depression years of the 1936s. In the year 1946, fixed charges were earned 4.87 times before Federal income taxes, and in the first 9 months of 1949, in spite of the adverse effects of strikes in both the coal and steel industries, fixed charges were earned 3.52 times before Federal income taxes.

Bondholders who elect to accept the exchange are not required to deposit their 4% bonds due 1952 at this time, but are requested to execute a letter of assent indicating their acceptance of the offer. -V. 170, p. 1959.
